

## MISSISSIPPI ROAD BOND ISSUE MAY HIT ANOTHER SNAG

Despite Extension of Terms of  
Members of Commission  
Governor Declares He Will  
Make New Appointment.

JACKSON, Miss., Feb. 6. (Sp.)—Despite the passage of the house bill extending the terms of present members of the Mississippi Highway commission until January, 1934, their successors to be elected by the people in 1932, Gov. Russell is determined to appoint J. M. Boone, a banker at Corinth, to succeed Judge J. Q. Robins, of Tupelo, as chairman of the commission.

Authoritative information to this effect came out of the governor's office last night and has added fresh complications to the negotiations under way to secure a compromise of existing differences over the several bills proposing a \$2,000,000 bond issue for the construction of good roads.

Russell's objection to Judge Robins, it is stated, are wholly political. It is further reported that an insistent demand has been made on him by ex-Senator J. M. Boone to displace Robins, the latter having served as manager for Pat Harrison when the latter defeated Vandam for the senate in 1918. Judge Robins was also active in behalf of Oscar Johnston for governor last year, and for these reasons is not in high favor with the present administration.

An effort will be made at a meeting Monday night to reach a harmonious settlement of differences over the highway bill. Members of the house and senate judiciary and roads, ferries and bridges will attend the conference. Present indications are that the legislators will "take the bull by the horns," so to speak, by providing that the highway commission be enlarged to nine members, all to be elected by the people in the election this year, and thus deprive the governor of all connections with the measure.

## Would Bar Papers Fighting For Race Equality In State

JACKSON, Miss., Feb. 6. (Sp.)—One of the interesting bills placed on the senate calendar yesterday is the measure by Senator Noel, of Holmes, seeking to make it a misdemeanor to print, publish or circulate arguments in favor of racial equality or marriage between the white and negro races.

The Noel bill is aimed at a number of small negro newspapers, printed outside of Mississippi, and occasionally sent into the state for distribution among members of the negro race. While the author realizes that his bill can not prevent the delivery of such publications by mail, it can check their distribution by agents among the negroes, and this is the end he seeks to accomplish.

## Activities Among Memphis Negroes

By Rev. T. O. Fuller.

A number of farms in Eastern Arkansas are changing hands at good prices. "Back to the farm and conquer the high cost of living," is the slogan.

We more than appreciate the Chamber of Commerce Journal, just received. It is brimful of Memphis and running over with the bright prospects of her future.

Reach the Howe branch library, Walnut 2600.

When a man leaves his own calling to take up another man's there's usually a vacancy, but not a very large one. Smiles!

Thomas H. Hayes, for many years one of our most successful undertakers, becomes president and general manager of the Tri-State Casket and Coffin company. Everybody likes "Tom" Hayes.

An ant could possibly build a mountain, but when would he complete the task? Big propositions require co-operative effort on a large scale.

The mayor has ordered our hospitals to give preference to ill cases, letting the surgical cases wait as long as possible. A sober second thought will suggest the wisdom of not mixing these cases. Stand by the mayor!

Many anxious boys and girls are calling and asking when the schools will open, but their only answer is the echo of their own voice. Call again.

The greatest gift God has given to the world was the life of a great man, and our communities are the poorer when they lose one.

S. D. Middleton, Jr., of Mendocino, Pa., is a happy visitor, and his parents are delighted. All are in the best of health.

There never was as much helpful co-operation between the races in Memphis as is found at the present time. One race is trying to be as kind and as helpful to the other as possible. You see on the right road. All together.

## Property In Tipton Is Up 700 Per Cent By New Assessment

COVINGTON, Tenn., Feb. 6. (Sp.)—The recent tax assessment, if levied as proposed, would make an increase in the valuation of Tipton county property of nearly 700 per cent. In a resolution passed at a recent meeting of the Business Men's club of Tipton county it was resolved that this increase was not equitable with the increase made in other counties of the state and that a gross injustice was being done the taxpayers of this county.

A committee was appointed to investigate the matter and take whatever action deemed wise. In 1919 the total assessment for the county was \$4,525,000, and according to the proposed rate the tax assessment for 1920 will be \$25,954,000.

The following committee was appointed to confer with local, municipal and county authorities and to act with them upon such matters as may be deemed advisable to present to the state board of equalization: Allison Simonton, J. W. Barry and L. E. Gwyn.

## CREATING NEW COUNTY MAY CAUSE BIG ROW

JACKSON, Miss., Feb. 6. (Sp.)—The plan to create a new county to be called Lowrey from portions of Amite, Franklin and Wilkinson counties promises to be the liveliest of its kind the legislature has experienced in many years. Lobbyists both for and against the proposed new county have invaded the capital and are going to camp on the scene until the proposed measure is disposed of. It will be given a hearing before the house committee on local and private legislation next Wednesday night.

A majority of the citizens in the three counties proposed for dismemberment are up in arms against the movement, while the people in the territory affected are almost solidly arrayed for the new county.

## MARINE EMBLEM IS CHARM TO TURKEY

CONSTANTINOPLE, Feb. 6.—The uniform and the globe, eagle and anchor emblem of the United States marine corps is a charm in the streets of Constantinople.

During all the time the U. S. S. Galveston has been stationed here not a single marine has been attacked in the streets, although they are sometimes ashore late at night.

So far the marines have been uniformly correct in their behavior, and their officers ascribe their immunity from molestation to "their reputation as fighters and the 'businessness' of the detachment from the 'Galveston'."

## FRENCH FAST RUNNER OUTRUNS A TRAIN

PARIS, Feb. 6. (By International News Service).—A French distance runner named Guillemot ran eight miles in the fast time of 29 minutes, 29.4 seconds, which is a record for France. The course was from Versailles Communes to Prevalan in the Bois de Boulogne, and Guillemot ran the distance in better time than the railroad train average between Paris and Versailles. Guillemot is at the Joinville school training for the 10,000 meters race at the Antwerp Olympic games.
